14 Describe the organizational action and, if applicable, the date of the action or the date against which shareholders' ownership is measured for the action. The Issuer paid a quarterly distribution to common shareholders from January through December 2017. All of each distribution constitutes a non-taxable return of capital.

15 Describe the quantitative effect of the organizational action on the basis of the security in the hands of a U.S. taxpayer as an adjustment per share or as a percentage of old basis. The portion of the distribution that constitutes a non-taxable return of capital will decrease a U.S. taxpayer's basis in the shares of the Issuer. See Statement 1 for the non-taxable return of capital.

16 Describe the calculation of the change in basis and the data that supports the calculation, such as the market values of securities and the valuation dates. Issuer's current and accumulated earnings and profits were compared to distributions paid during the year ended December 31, 2017. The non-taxable return of capital represents the amount of distributions paid during the year ended December 31, 2017 in excess of Issuer's current and accumulated earnings and profits under IRC Section 316.
